CAREER OPTIONS

Graduates will **qualify as entry-level registered nurses** in multi-variant settings as members of the healthcare profession upon passing the National Council Licensure Examination (NCLEX). Nurses can work in small or large medical groups, fly with trauma center helicopters, or travel with humanitarian or first-response teams. According to the Bureau of Labor Statistics, employment of registered nurses is **expected to grow 26 percent** from 2010 to 2020, faster than the average for all occupations. Growth will occur primarily because of technological advancements; an increased emphasis on preventative care; and the large, aging baby-boomer population who will demand more healthcare services as they live longer and more active lives.
